About JOIN

Join is the only Italian-owned company in the conferencing market.

We have been in the Italian market for 15 years and our staff has a proven experience in conferencing of more than 20 years.

We are a worldwide Conferencing Service Provider for professional audio, video and web communication services: conference call, video conferencing, web conferencing and streaming.

JOIN offer

Join is the first Italian conferencing provider offering a complete range of communication services:

JOIN AUDIO

A professional audio conference service that allows you to access meetings from any country in the world, using toll and toll-free access numbers or the appropriate app. The service offers management of reports, registrations and Q&A sessions. It is also possible to manage the conference online thanks to the dedicated web interface.

JOIN WEBINAR

A service based on Zoom technology; it is the easiest audio/video webcast service at the most affordable price. It allows you to reach a large audience through videos and presentations without any technical installation or special requirements.

JOIN HEALTH

JoinHealth is a mobile telemedicine platform that ensures peace of mind that the physician provides a remote physical platform using the TytoCare device. It includes an examination of the heart, lungs, ears, throat, temperature and skin.

Where and when you need it, without certifications, you can have the services of the best specialists.

JOIN CARRIER

JoinCarrier offers national and international telephone numbers, geographic, toll-free and shared in VOIP numbers to be connected to the JoinPhone switchboard or any other VOIP switchboard. Compatible with other solutions, such as Skype for Business and Teams.

JOIN PHONE

A new solution aimed at small and medium-sized companies that need an advanced telephone switchboard, taking advantage of high-tech services, reducing telephone costs.

JOIN VIDEO

An innovative HD video conferencing service in the cloud on Vidyo technology that will amaze you with high definition quality, clear audio and ease of use from any terminal: personal computer, laptop, tablet, smartphone, videoconference endpoint. and SIP.

JOIN VIRTUAL EVENT

A Virtual Event is an event organized in an artificial scenography. In a VIRTUAL SET the speaker can be surrounded by LED walls and floor, which allow instant visual feedback with the surrounding environment. All this allows the speaker a more natural interaction with the space, being able to show what surrounds him. The same result can also be obtained on GREEN SCREEN. No longer needing a real scenography, it is now possible to adapt the environments dynamically according to the needs of the event.

JOIN EDUCATIONAL

A videoconferencing service dedicated to schools. Each classroom is replaced by a virtual classroom with a dedicated access. Usage friendly for both teachers and students and completely controllable by school's Principle and Director.

JOIN
EDUCATIONAL

**JOINEDUCATIONAL IS A NEW VIDEO
CONFERENCING-BASED VIRTUAL SCHOOL
SERVICE.**

The uniqueness of the service lies in its user-friendly usage and the possibility to replicate the functions and experiences of a real school in a virtual way. The service provides you with different virtual rooms corresponding to the different real-life classes that you can access through a link. Each student will have his/her own link that can be simply bookmarked on the browser in order to enter the virtual classroom without downloading an app or software. By downloading the app, teachers will have control of all their classes and will be able to access them with a simple click, without the need to save links or remember passwords.

In the same way, they will have access to a private teacher room where personal rooms will be available for parents-teacher meetings.

The app also allows school's dean and management to have a complete overview of the entire school's activities and to access any classroom at any time at their own will with a simple click. Just like in a real school. In the same way, they will have access to personal rooms where they can meet and make appointments with parents or school's stakeholders. The service is multilingual in order to meet the school's specific needs.

SERVICE FEATURES:

- Virtual classroom for lessons up to 50 participants. It replaces the physical classroom.
- Immediate access from PC / Tablet / Smartphone via link.
- Compatible with Windows / Mac / Linux operating systems.
- Access directly from the Web Browser. No need to download applications.
- App for iOS and Android.
- Desktop sharing.
- Shared blackboard.
- Audio access also by telephone.
- Video resolution up to 4K UHD.
- Audio and video interactivity as if you were in the classroom.
- High quality even in limited connection conditions.
- Number of unlimited video conference sessions.
- No reservation needed.
- Multilingual Technical assistance by e-mail and telephone.

Teacher Account allows:

- Complete visibility of all active virtual classrooms.
- Immediate access into the classroom with a single click.
- To verify online teachers' presence.

Dean / Vice Dean / Supervisor Account allows:

- 1-to-1 interaction with teachers.
- Complete visibility of all active virtual classrooms.
- Immediate access into any classroom.
- To verify online teachers' presence (if provided with a teacher account).
- Access to service usage reports.

Teacher room:

It is a room exclusively reserved to teachers and school management. Private access.

Other options available

- Recording & Streaming of lessons. 100GB to 500GB available space.

Minimum configuration:

5 accounts among teachers and Dean.

The number of classrooms that can be opened is unlimited but not greater than the number of teachers.

OPERATION

Each teacher can therefore see his colleagues and is enabled with point-to-point calls to speak with others.

At the time of the lesson, each teacher only has to look for the classroom where he/she is supposed to give the lesson (just like in real-life) and click to enter.

We also provide you with a "teacher room" dedicated precisely to the meeting between teachers (again, as in real-life).

At any time, The Dean and Vice-Dean can decide to enter a classroom of their choice and follow the lesson (yes, as in real-life).

The Dean has control of and can verify all the actual remote teaching activities.
